submenu not visible

Posted by boandlgr - 2013/03/23 11:14
_____

Hello everybody!

the submenu doesn't work in IE 8 & 9. In Chrome and Firefox works pretty. Can anybody help me, please?
ffw.bdressed.de

Best Regards
Ben

_____

Hello,

What browser do you use? Sub-menus are shown fine in FireFox browser.

Regards,
ARI Soft

_____

Hello

i know FireFox and Chrome works.

But Internet Explorer 8 and 9 doesn't work.

Can you help me?

Kind Regards
Ben

_____

Javascript error occurs in /templates/beez3/javascript/hide.js file in IE browser and this error prevents execution of "ARI
Ext Menu" javascript. Fix the error and the menu will work fine.

Regards,
ARI Soft

_____

You can see details about the error in browser's error console (press F12 in IE browser):

_____

this is pretty bad...
i am trying to solve the problem since days.

i found the error in mootools-core.js http://www.ari-soft.com/images/fbfiles/images/Unbenannt.jpg

The same error occours in FireFox and Chrome. i think this one isn't the issue...
uncounselled :(
