
Could submenu always show the options?

Posted by Humanista - 2013/04/02 18:00

Hi,

We'd like the menu always showing its options, without mouse over, is it possible?

here's the page, for left menu.

<http://iecommerce.com.br/01emporiotartufi/index.php/produtos>

Thanks!

Hello,

"ARI Ext Menu" is a drop-down menu, it doesn't provide ability to show sub-menus always.

Regards,
ARI Soft
