I have 2 menus but only shows 1

Posted by enric - 2013/04/03 08:06

_____

I have 2 Ari Ext Menus in the same page and the problem it's when I click over a link of the second menu... all the links of the first menu dissapear at the same moment.

 http://www.noshan.eu/noshan01.jpg
 http://www.noshan.eu/noshan02.jpg
 http://www.noshan.eu/noshan03.jpg

I created a joomla theme with two positions, MENU and MENUINTERIOR as you can see on the pics.

The correspondent menus to this positions have this names:

MENU -> ARI EXT MENU ENG

MENUINTERIOR -> ARI MENU INTRANET

(Currently I deactivate this menus and I'm using the joomla's standard menus but do you can activate again if do you want to try...)

CAN YOU HELP ME TO SHOW ALL THE ARI EXT MENUS AT THE SAME TIME IN THIS POSITIONS OF MY TEMPLATE????

This is the site url: http://www.noshan.eu/

Sincerely Thanks.

Enric

_____

Hello,

Send screenshots of "ARI Ext Menu" module settings for both menus by email.

Regards,
ARI Soft
