
sub menu items overlapping

Posted by ITEERP - 2013/04/09 08:32

Hi
I am trying to create a menu in joomla 2.5 using the beez5 template
using suggestions I have added the logo & the main menu in a table in the header area
however the submenu's are overlapping
this also happens without the table at quite a few positions in this template
can u pl help me with this
the url is www.nihitkaul.com/funza
pl let me know if u need any other info

thanks again

Hello,

This problem with site template styles for default menu. Read this post.

Regards,
ARI Soft
