
align-right ro Ext Menu

Posted by Aschi - 2013/04/12 07:20

Hi

I installed Ari ext menu on a site, I'm migrating to Joomla 2.5 and would like, to align the menu to the right.
In the forum I found a topic with this solution:

```
.navigation .ux-menu-container {  
text-align: right;  
}  
.navigation .ux-menu-container .ux-menu {  
display: inline-block;  
}
```

I entered this code in the module under CSS-Styles, but somehow it is not working on my page.

Thanks a lot for your help and best regards
Aschi

Hello,

Use the following CSS rules:

```
#header .ux-menu-container {  
text-align: right;  
}  
  
#header .ux-menu-container .ux-menu {  
display: inline-block;  
}
```

Regards,
ARI Soft
