Hello

I update my menu from version 1.5 and now I only get text listed vertical over my left column. I have no idea what is causing this

Thanks

Hello,

Where we can see the problem?

it can be seen at <http://nilandsplace.com/> but now I have on menu at all. When I do <http://nilandsplace.com/?tp=1> it shows a thin line on menuload so I think it might be a css problem but I am inexperienced

The menu doesn't contain menu items. It can be a problem with module settings. Send screenshot(s) of module settings page by email.
