
Image Menu Didn't work

Posted by abiraemon - 2013/05/28 08:33

Hello,
i try to change home text with icon.
but still not show.. any suggest??

i want to do like this picture

<http://www.ari-soft.com/images/fbfiles/images/home-eda0a4a2103bcd62ab6715dd86256.jpg>

thank you

=====

Hello,

It is necessary to use a custom CSS rule to use an image as a background for a menu item. Information about menu HTML layout and CSS classes can be found here. It can be used to customize the menu.

Regards,
ARI Soft
