Using position: absolute;

Posted by Destelloaudiovisual - 2013/06/17 15:05

_____

Hello!

I am trying to put the menu on an image.

As you told me in

http://www.ari-soft.com/ARI-Ext-Menu/40692-2-questions.html

I used it in other website

```
.rt-grid-12>.rt-block
{
overflow: visible;
}

#rt-header .ux-menu-container
{
position: absolute;
top: -750px;
left: 20px;
}

#rt-header .ux-menu A
{
background: none transparent;
border-style: none;
}
```

But it's not working. Its the same template (cloudbase) and the only difference is that this time I have three columns (headera, headerb, headerc) and I want the menu to be over headerb (the cover image)

http://pedrotebar.com/megustasprueba/

What can I do?

Thanks!

_____

Hello,

Use something like this:

```
.rt-grid-6>.rt-block
{
overflow: visible;
}

#rt-header .ux-menu-container
{
position: absolute;
top: 140px;
left: 20px;
}
```

Regards,

ARI Soft
