
ARI Ext Menu not showing in the position-1

Posted by ptsreejith - 2013/06/20 12:13

I am using Beez5 template (Joomla 2.5).I have installed and configured ARI Ext Menu.In the configuration I have set the position to position-1.But the menu is not showing.Please help. http://www.ari-soft.com/images/fbfiles/images/settings_1.GIF

Hello,

It can be a problem with site template styles. Where we can see the problem?

Regards,

ARI Soft

This problem with site template. You can read how to fix styles here, but the site template also loads the module twice.
Fix it.

Regards,
ARI Soft
