_____

Hi, Suddenly my menu at the top right does not have working links. I can't find any errors with Firebug. Using Joomla 3.0. Any ideas?

http://69.195.124.103/~cbacfcor/

Thanks for your help!

Janet

Hello,

This problem with the following custom CSS rule:

.ux-menu-container {
    z-index: -10000 !important;
}

which is defined in /templates/yoo_balance/css/custom.css file.

Regards,
ARI Soft

Wow, thanks for the fast help. I don't remember what the problem was that made me add that code in the first place, but everything seems good.

Have a great day!

Janet
