
Problem with Rok* extensions

Posted by lhooq - 2013/07/06 20:59

Hi;

I'm using ARI Ext Menu with some Rok (RokBax, RokGallery) extensions from Rockettheme, and Boxplus plugin, but when both are enabled, none of them work...

If i disable RokBox, ARI + Boxplus + RokGallery works;

if i disable ARI, RokBox + Rokgallery + boxplus works

if i disable Rokgallery, Boxplus works but not ARI neither Rokbox works.

But problem only appears IF Ari + Rok extensions are used on the same page...

:blink:

All extensions are on the very latest version...

Thanks.
