sub-menu appearing far below
Posted by dadoonan - 2013/07/09 02:35
_____

Ari Ext Menu is being used for our top navbar.

I've just created a new Ari Ext menu module for used as a sidebar on a limited number of pages. It's working, but the sub-menu items are appearing 60 pixels below.

The sub-items on the top navbar are being displayed immediately below the main Ari item.

Any idea what might be going on? http://www.ari-soft.com/images/fbfiles/images/Screen_Shot_2013_07_08_at_10.png

Hello,

It seems this problem with site template styles. Send a link to a page where we can see the menu.

Regards,
ARI Soft

_____

Add the following CSS rule:

#right .ux-menu-container UL
{
 position: static;
 padding: 0;
 margin: 0;
}

Regards,
ARI Soft
