
Menu don't fit

Posted by chriske81 - 2013/08/05 16:13

hi i have install the ari ext menu but the problem i have is that the menu blocks not touch each out you can have a look on

<http://testsite.united-lightworkers.be/>

i don't found the problem.

Hello,

This problem with site template styles. Add the following CSS rules to fix the problem:

```
.art-sidebar1 UL.ux-menu LI,  
.art-sidebar1 .art-block .ux-menu-container ul > li:before  
{  
padding: 0;  
margin: 0;  
  
}
```

```
.art-sidebar1 .art-block .ux-menu-container ul > li:before  
{  
content: "";  
display: block;  
}
```

Regards,
ARI Soft
