
Problem with Z-index on Submenu

Posted by pradeepcb - 2013/08/06 12:10

Hi, I have a problem displaying a sub menu over the right position on the homepage.

Please check <http://www.helpathome.co.in>

In the Corporate Services Menu Im unable to see any of the sub menu items. Help me solve this ASAP.

Hello,

This problem with site template styles. You can add the following CSS rule:

```
BODY .ot-content
{
  overflow: visible;
}
```

but it can cause a problem with content in center column. You can contact site template developers so they fix this problem.

Regards,
ARI Soft
