
CSS Styles - background image on ARI EXT menu

Posted by lesiet - 2013/08/28 11:57

Hi,
I tried to modify CSS Styles in module properties but it won't work :(.
Here is my test page: <http://novalab.com.pl/test>
I have added CSS Style:

```
#ariext88_container .ux-menu > LI > A.current {  
    background: url("novalab.com.pl/test/images/novalab/activ.png") repeat scroll 0 0 #13A89E !important;  
}  
  
#ariext88_container .ux-menu > LI > A{  
    background: url("novalab.com.pl/test/images/novalab/menubg.png") repeat scroll 0 0 #13A89E !important;  
}
```

Problem is that I don't know how to add hover background and background for submenu "Kontakt". Also when I choose something from "Kontakt" menu I lost background images.

Link for hover image: novalab.com.pl/test/images/novalab/hover.png

Can You help me?

Regards,
Lech

Hello,

Background images are disappeared on sub-pages due to problem with relative paths which are used in custom CSS rules and SEF. Use the following CSS rules:

```
#ariext88_container .ux-menu > LI > A.current {  
    background: url("/test/images/novalab/activ.png") repeat scroll 0 0 #13A89E !important;  
}  
  
#ariext88_container .ux-menu > LI > A{  
    background: url("/test/images/novalab/menubg.png") repeat scroll 0 0 #13A89E !important;  
}
```

Use the following CSS rule for hover and sub-menus:

```
#ariext88_container .ux-menu > LI > A:hover,  
#ariext88_container .ux-menu-sub LI A{  
    background: url("/test/images/novalab/hover.png") repeat scroll 0 0 #13A89E !important;  
}
```

Regards,
ARI Soft
