Hello,

Do you choose colors on backend and they are not applied on frontend or do you mean something another? Where we can see the problem?

Hi
I have the default colors showing on the site, but want to chnage them.

I can change text size, etc from within the module itself, but not the colors. (the fields are currently bsank - see atcched screenshot) <http://www.ari-soft.com/images/fbfiles/images/screenshot-b8976db18fd4cdfe04987a8ef652b4de.png>
