## menu border

Posted by mpourkos - 2013/08/30 14:41

---

Hello i use arimenu vertical but there is a problem. There are 3 options. The 1st and 2nd option don't have the bottom line of the border while the 3rd one has.

Also there are some small arrows in front of every menu. Can i edit/delete theme?

Here is a link to see. The menu is on the left side (Main Menu): <http://merlinsmagicworld.com/>

Hello,

This problem with site template styles. Add the following CSS rules to fix the problem:

```
.art-sidebar1 .ux-menu LI
{
margin: 0;
padding: 0;
}
```

```
.art-block ul.ux-menu > li:before
{
margin: 0;
content: "";
display: none;
}
```

I have the same problem with the vertical menu. Adding the code did not fix it.

Can you help? See [www2.sdob.nl](http://www2.sdob.nl)

Best regards

The page doesn't contain "ARI Ext Menu" module.
