[solved]positioning the menu
Posted by sathindra - 2013/09/08 15:34
_____

I can't figure out to how position the menu correctly. if I put right:80px; then menu will be positioned. background won't stretch 100%.
Here is the link to my site. Thanks in advance.

_____

I wanted to correct the position by right:80px; Then that bar doesn't stretch the site end to end. Left alignment of the menu seems to be the logo. http://www.ari-soft.com/images/fbfiles/images/Screenshot_7-9a941e679713abbe6f5a58c59cbcb65a.png

_____

It looks fine for us:

 http://www.ari-soft.com/images/fbfiles/images/menu-9f8945b5581195fb7d50c09ad5e5e6c4.jpg

We have checked it in FireFox browser.

_____

Please check again. I revert the changes. I tried temporary solution by adding width:106%. That's why it looks like that. Hope you have a better solution.

_____

Add the following CSS rules:

```
#header_wrapper .custom
{
 overflow: hidden;
}

#menu_bar .ux-menu
{
 display: inline-block;
}
```
