How to load a module inside a menu item

Posted by mpistone - 2013/09/25 00:39

_____

Hello,
is possible load and show a module inside a submenu item?

Thanks in advance

_____

Hello,

Load a module into an article with help of "Content - Load Module" standard Joomla! plugin (or any other similar plugin) and create menu item for the article.

Regards,
ARI Soft

_____

Thank you for the quick response.
But what i need is load the module directly inside a menu item, more or less like the ck megamenu or shape5 menu.
Is possible to do this with the ari menu?

Thanks in advance.

_____

The module doesn't support this ability.
