
Submenus nor appearing, formating not proper.

Posted by nasirq - 2013/11/13 09:15

I have tried, but could not get the sub menus to open.

**** Link Removed ****

There are 11 sub menus under "Policy & Procedure", but none appears. Sometimes, only the first one appears.

I want the sub menus to drop down in a list like shown on <http://www.demo2.ari-soft.com/ari-ext-menu.html>.

The small down arrow is also over the text.

The formatting, border etc. are also not proper in this template.

Please help.

Hello,

This problem with site template style for default menu in selected module position. Add the following CSS rule:

```
#navbar DIV.ux-menu-container ul
{
  overflow: visible;
}
```

It is better but still not proper.

The background is transparent, the long text is overlapping and the small down arrow is still over the test.

Open index.php file of site template and replace the following code:

and replace it with the following one:

add also the following code to "CSS Styles" parameter in module settings:

```
UL.ux-menu LI{margin:0;}
```

It seems to be fine now.

But the menu is not showing the color of the template.

Color of menu items can be configured in module settings.

Thank you.

You have one of the best support I have seen.
