
Issue with page width - scrollbar

Posted by beBoss - 2013/11/13 16:17

Well, I have problems with my site. On loads shows bottom scrollbar. When I hover the ari menu the scrollbar disappear.

Example page and pic:

<http://www.ivanyane.com/novini>

<http://imageshack.com/a/img11/7584/uglq.png>

Same problem with ari demo site:

<http://www.demo2.ari-soft.com/ari-ext-menu.html>

<http://imageshack.com/a/img191/949/m98y.png>

But here you have to hover the vertical menu (the second and third item these with arrow).

Hello,

What browser do you use?

Regards,
ARI Soft

Issue with

- Opera Developer 19.0.1310.0

- With Google Chrome 31.0.1650.48 m

Works great with

- Firefox 23.0.1 and 25

- IE 11.0.9600.16438

Add the following CSS rule:

```
UL.ux-menu UL.ux-menu-init-hidden {  
    left: -9999em;  
}
```
