ARI Ext Menu pulldowns visible and overlapping

_____

Hi Ari-Soft,

My client's site got hacked, we cleaned it up, but our ARI Ext Menu is showing the pull-down menus at all times. Also, they are overlapping, too.

How can we fix this?

Our specs:
Joomla 2.5.16
ARI Ext Menu 2.0.7
PHP 5.2.17
Template: beez_20

I've attached a screenshot showing the problem.

Thanks for your help.

Thanks! I read the post and copied the following style and pasted it into the layout.css stylesheet in beez_20 and it fixed the problem. Is that what you intended? I copied the whole thing. Seems not to have affected anything else.

Best,
Railer

div#header
{
 overflow: visible;
}
#header ul.ux-menu li a:link,
#header ul.ux-menu li a:visited
{
 display: block;
 padding: 10px 14px;
}

```css
#header ul.ux-menu li a.ux-menu-link-parent:link,
#header ul.ux-menu li a.ux-menu-link-parent:visited
{
 display: block;
 padding: 10px 24px 10px 14px;
}

#header .ux-menu ul.ux-menu-hidden
{
 display: none;
}

#header ul.ux-menu
{
  right: 0;
  margin: 0;
  padding: 0;
 position: relative;
}

#header ul.ux-menu-sub li
{
  text-align: left;
}

#header .ux-menu-container ul
{
 max-width: none;
 padding: 0;
 margin: 0;
}
```
