
Main menu not showing on chrome

Posted by benclintz - 2014/01/08 06:08

I am using the Ari EXT menu and its working well in Mozilla however it is not displaying well in google chrome what could be the reason? the site is <http://www.alliancesafaris.co.ke/>

Hello,

The menu at right side is shown fine in Google Chrome on our side.

Regards,
ARI Soft

Hello Admin,

The one on the right side is displaying well but i am having trouble with the top menu.

This problem with site template styles. Add the following CSS rule to fix the problem:

```
#menu
{
  z-index: 200;
  height:0;
}
```

Regards,
ARI Soft
