## Submenus not clickable on windows8 tablets in IE11

Posted by ChristianWST - 2014/01/16 18:00

---

Hello everybody,

i use ariextmenu for a long time in several sites and i enjoy it, but with windows8-tablets an IE11 it is not possible to work with submenus. Touch the parent menu item opens the submenu for a very short time and then the submenu disappears, so there is no possibility to touch a submenu item.

In other browsers it works.

How can i solve this problem with IE11 ?

Thanks for help.

Greets Christian

Hello,

Where we can see the problem?

For example:

<http://www.gaeubodenbaecker.de>

or

<http://www.radl-treff.de/sternenfahrt>

Upgrade the extension to the latest version and clean browser's cache.

I just updated the extension, but the behavior is still the same.
