## how i change the position of submenus in vertical

Posted by ribo - 2014/01/18 00:39

---

hello, i want to put this menu vertical and in left and in right. in left everything it s ok as i want. but in right module position the submenus goes in right. how can i use the submenus to go in left side only in right module position? i mean in right module position the submenus to get out inside the site and not outside.

thanks

Hello,

The extension doesn't support this ability.
