## Menu Position

Hello,

I'm trying to equally space and position footer menu items on my site (<http://m23.siteground.biz/~avionica/jupgrade/index.php/faqs>). I'm running Joomla 2.5 using default beez\_20 template. Any help would be greatly appreciated.

Thanks.

This is an image of what i currently have. By-the-way, I created the template module positions for the new menu area.

Thanks in advance. [http://www.ari-soft.com/images/fbfiles/images/Current\\_Look.png](http://www.ari-soft.com/images/fbfiles/images/Current_Look.png)
