
Can\'t see top menu with Beez3 template(Joomla 3.x)

Posted by Elledan - 2014/03/21 07:41

I'm using Joomla! v3.2.3 and I can't understand why top menu isn't visible with beez3 template. when I switch template to protostar - everything fine, and if I change a parent from "Top" to "Main Menu" and change position - everything fine too and ... can you help me with this? :huh:

Hello,

Send a link to a page where we can see the problem and screenshot(s) of module settings page by email.

Regards,
ARI Soft
