Line break issue in Firefox

Posted by ccvortex - 2014/05/08 18:05
_____

Hi, first off, thanks for a great module, it works great.

I am having an issue with the sub-menu widths in Firefox as indicated by the attached image. In some sub menu items the title has a strange line break in it, but this does not happen in IE or Chrome... any ideas?

Hello,

Send a link to a page where we can see the problem.

Regards,
ARI Soft

_____

Add the following CSS rule:

UL.ux-menu LI A
{
 white-space: nowrap;
}

Regards,
ARI Soft

I got it to work using this forced CSS:

#ux-menu-item-level-1 {
    width: 180px!important;
}
.ux-menu-item-level-1 {
    width: 180px!important;
}

But what I really want it to do is just go to the longest sub menu item... possible?

_____

Use the CSS rule from our previous post.

Regards,
ARI Soft
