## Remove Just the far left and far right Borders.

Posted by Shoot - 2010/06/27 04:24

---

I would like to remove the far left and far right borders, but keep the inner borders intact.

Current

<http://www.bamboofloatingfloors.com/1/images/oldbanner.png>

What I would like.

<http://www.bamboofloatingfloors.com/1/images/newbanner.png>

Thank you.

Hello,

Add the following CSS rules to template CSS file or to 'CSS Styles' parameter in module settings:

```
.ux-menu-container .ux-menu .ux-menu-link-first
{
    border-left-style: none;
}
```

```
.ux-menu-container .ux-menu .ux-menu-sub .ux-menu-link-first
{
    border-left-style: solid;
}
```

```
.ux-menu-container .ux-menu .ux-menu-link-last
{
    border-right-style: none;
}
```

```
.ux-menu-container .ux-menu .ux-menu-sub .ux-menu-link-last
{
    border-right-style: solid;
}
```

Regards,  
ARI Soft
