
May be it's annoying, but this.el is null in IE

Posted by asommer - 2014/10/20 19:07

I have change settings to "On Load" (as I have seeing on forum) and now I have error only in IE8 (previously was in all browsers).

Can I fix it somehow?

Hello,

Where we can see the problem?

Regards,

Hello!

Try to look here:

TurnEast

Menu module instance with ID = 102 is empty (it doesn't have menu items). Remove or disable it.

Thank you for investigating!

Thats a menu of english version of site

You can see it on page link

I can not disable it. If to assign module for each page separatly than it would be not comfortable to manage all pages and menu items.

Is there no other way?

Problem was solved just by changing language inside modules. Both modules are still assigned to all pages but thay have different languages.
