amenu stacking question

_____

joomla 3.3.6

Menu now has so many links they are wrapping under each other which a client wants, but the submenus of the top line go beneath the 2 line of links and won't display. See attached image

Is there a way to make the horizontal menu look/work like this, 2 horizontal lines of links with a space between the levels.

Line 1: Home | Newsletters | Whats Hot? | Calendars | HOSA Dues | Documents | Contact Us
----Space----
Line 2: Playground, Fire Pit, Pavilion, and Restroom | Photo Gallery http://www.ari-soft.com/images/fbfiles/images/hssample.png

Hello,

The extension doesn't support this ability.
