dissociate color css (active / over menu, select)

Posted by nexim59 - 2010/07/08 13:25

_____

Hello (sorry for bad english)

I am seraching to dissociate color CSS (like the image)
I have problem for menu over / select over.

Thanks in advance http://www.ari-soft.com/images/fbfiles/images/menu_link.png

_____

Hello,

You can use the following CSS rules:

/* over */
.ux-menu-container .ux-menu A.ux-menu-link-hover
{
 background: red;
}

/* select over */
.ux-menu-container .ux-menu a:hover,
.ux-menu-container .ux-menu A.ux-menu-link-hover:hover
{
  background: green;
}

Regards,
ARI Soft

_____

Hi,

I really like this menu, thanks a lot!

Just I'm havin troubles to highlight the current item (which would be the black one in above example). I'm using Joomla 1.6 and set "Highlight current item" to "Yes" in the paramenters, but does't work.. not even by modifying the CSS :ohmy:

Have a nice sunday
lotta

_____

Hello,

Provide link to page please where we can see the menu on your site.

Regards,

ARI Soft

_____

One more question.. what do I do to decrease the height of the menu items?

When I try to do that in CSS the space between menu and submenus is increasing?

_____

sorry, found it. Changed "padding: 10px 14px;" to "padding: 6px 14px" in styles.css.. Dunno why I didn't see it in first place :/

Thanks again and bye
lotta
