
Hidden menu from phones

Posted by niavet2001 - 2015/03/26 21:33

Dear
i have a problem with a menu
the second menu down from slider is hide in iphone
What is the problem ?

Hello,

This problem with site template styles. Add the following CSS rule to "CSS Styles" parameter in module settings:

`.navigation2 {display:block!important;}`

Regards,
ARI Soft
