
IE : the menu remains in the frame (Position 7)

Posted by linque - 2015/04/20 11:27

The vertical menu is cut at the limit of the iframe.

The horizontal menu works well.

I can't, it's an intranet...

I have put the image of the result !

It doesn't work on IE 8 -> 11
It works on Chrome

It can be a problem with site template styles. We can't investigate this problem by a screenshot.

The Template used is ALLROUNDER-3.

It works fine with Beez3 or Protostart.
