
Joomla 3, change or auto weight not working

Posted by whatever - 2015/05/23 18:29

Hi,

I have menu with no submenu item and it's look like in image.

http://www.ari-soft.com/images/fbfiles/images/Bez_tytu_u.png

I can't change weight of menu or even color border style. I try to put some CSS code from other topic on this forum but they don't work. Please help me :(

Hello,

Send a link to a page with the menu.

Regards,
ARI Soft

The following CSS rule can be used to hide borders:

UL.ux-menu a,
UL.ux-menu a.ux-menu-link-last {border-style:none;}

It works very well Thank You, but still the hover background is to small, is it any CSS working code to change height and width property?

Add the following CSS rule:

#wdb_toolbar .ux-menu-item-main>A {line-height:25px;}
