# Horizontal Menu is not centered in the page

_____

Hi,

I have installed the Ext Menu and can get the menu module to work with your extension. However, the Horizontal Menu is now 'Left Aligned' in the browser window. See attached snapshot.

This was 'Centre Aligned' when I used the Joomla Core Menu Module and that's how I want to use it.

Can you help to get the Main Menu to display centre aligned horizontaly?

I am using the Ice Theme IT Zin template for my site.

I'd appreciate very much if you could help with this.

Hello,

Send a link to a page where we can see the menu.

_____

Add the following CSS rules to "CSS Styles" parameter in module settings:

.ux-menu-container {text-align: center;}
.ux-menu {display: inline-block;}
