
how to change height and the color of arrows

Posted by liuqian76 - 2016/04/15 08:58

How to set/change the hight of the items?

Also, can we change/set the color of the arrows?

Thank you. :unsure:

Hello,

Image files for arrow buttons are /modules/mod_ariextmenu/mod_ariextmenu/js/css/images/menu-arrow-down.png and /modules/mod_ariextmenu/mod_ariextmenu/js/css/images/menu-arrow-right.png.

Information about menu HTML layout and styles is available [here](#). It can be used to customise the menu (for example change height and etc.).

Regards,
ARI Soft
