
Submenu always visible

Posted by fabione - 2016/04/27 07:59

Hello,
first of all thank you so much for your extension, very easy to use and intuitive.

Unfortunately I have a problem with my top menu, sub-menus are not grouped and so always visibile.

I can undertand why, can you help me please? Attached an image showing what happens.

Thank you in advance.

Regards,
Fabio. http://www.ari-soft.com/images/fbfiles/images/sub_menus_image.png

Hello,

Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft

Hello,
thank you for your reply.

Unfortunately I'm working on my pc. I attached the html source, I hope it is useful.

I forgot to write that the Joomla version is 2.5, and default template is beez_20.

Thank you in advance.

Regards,
Fabio. <http://www.ari-soft.com/images/fbfiles/files/source-07c64ea92f01ca2b57905c5cddbff66e.txt>
