
Menu broke after updating Joomla

Posted by sohopros - 2016/05/17 10:11

Hi,

I updated Joomla from 3.4.8 to 3.5.1 on my dev wesbite and menu broke. See dev website here:

<http://www.wshed33.devsoho.com/>

Our live website with correct menu:<http://www.cleanwatershed.org/>

Please advise,

Sandra

Hello,

The pages don't contain "ARI Ext Menu" extension.
