
Move menu to the left

Posted by markec - 2010/07/28 12:23

Hi, is it possible to adjust menu more on the left, without white space - www.sah-kocevje.si/portal/
At the same position as header - small gap (few pixels) to blue background.

Can you please help me with solution? Thanks

Hello,

Try to add the following CSS rules:

```
#leftcol-bg .ux-menu .ux-menu-item-main a
{
    border-left-style: none;
}
```

```
#leftcol-bg .ux-menu-container .ux-menu a.ux-menu-link-last
{
    width: auto;
}
```

Regards,
ARI Soft

It just moves menu to the same position just without blue border. I need this blue border. I just want to move the whole menu (with blue borders on the left) to the left border of the module

Try the following:

```
#leftcol-bg .side-mod .module {
    padding:6px 0;
}
```
