
submenu doesnt show activ

Posted by Aschi - 2016/11/04 12:31

Hi

I have the submenu on a different module position:

<http://www.helloindia.ch/helloindia/index.php/onlineshop>

With a click on "Onlineshop" the first item of the submenu opens, but does not show active status, how to get that?

Thanks and best regards

Aschi
