
Sub menu is not working

Posted by HeRiNo - 2017/01/19 21:25

Joomla 3.6.5

Hello,

I try for my new website www.place2chat.com/nieuw to use the ARI Ext Menu. But I can't get sub menu working. So I am trying wit 2 Items, I get an arrow on the right site but it is not dropping out. Is there some one who can help me with this?

Best regards, Herman.

Hello,

Where we can see the problem? The home page doesn't contain "ARI Ext Menu" module.

Hello,

the problem is on www.place2chat.com/nieuw the green menu in the right top is ARI Ext Menu. it has 3 items now. 2 vissable and 1 sub menu item.

Best regards, Herman.

The same module instances are loaded twice on the page (probably by site template). If you really need this behaviour, open module settings page and set "Generate unique ID" parameter to "Yes".
