
Menu items end in error page

Posted by debyf - 2017/01/27 19:56

Hi, our ARI ext menus were working perfectly and then a couple of days ago, they just went wacko... please see attached error page. Can you help us?

Hello,

Send a link to a page where the problem occurs.

Regards,
ARI Soft

We see a blank page. It seems a PHP error occurs, check error log or open "System -> Global Configuration" page then open "Server" tab and temporary set "Error Reporting" parameter to "Development" value to show errors into a browser.

Regards,

ARI Soft

I've change the error logging setting.
this is the error that comes up:

Deprecated: iconv_set_encoding(): Use of iconv.internal_encoding is deprecated in
D:\www\columbiaan.nl\www\CMS\libraries\joomla\string\string.php on line 27 Deprecated: iconv_set_encoding(): Use of
iconv.input_encoding is deprecated in D:\www\columbiaan.nl\www\CMS\libraries\joomla\string\string.php on line 28
Deprecated: iconv_set_encoding(): Use of iconv.output_encoding is deprecated in
D:\www\columbiaan.nl\www\CMS\libraries\joomla\string\string.php on line 29 Warning: imagecreatefromjpeg(): gd-jpeg:
