## Strict Standards: Non-static method AriUtils::pars

Posted by Otto - 2017/02/27 15:15

---

Hello...

I have error in joomla 3.6.5:

Strict Standards: Non-static method AriUtils::parseValue() should not be called statically in  
/modules/mod\_ariextmenu/mod\_ariextmenu/kernel/Utils/class.Utils.php on line 48

and

Strict Standards: Non-static method AriUtils::parseValueBySample() should not be called statically in  
/modules/mod\_ariextmenu/mod\_ariextmenu/kernel/ExtMenu/class.ExtMenu.php on line 58

Please help

thank you

Hello,

Open "Server" tab on "System -> Global Configuration" page on Joomla! backend and set "Error reporting" parameter to "None" value.

Regards,  
ARI Soft
