## Spaces Between Menu Items

Hello,

I was hoping someone could help me with this problem. I am getting spaces between my menu items instead of them being bumped up together. Please see the below picture.

I'm sure it has something to do with CSS options.

Thank you! <http://www.ari-soft.com/images/fbfiles/images/ARMenuGaps.GIF>

Hello,

Send a link to a page where the problem occurs so we can investigate it.

Unfortunately this isn't a live site. It's hosted on our internal network for now, as we work out the quirks of it before we make it live.

We can't investigate this problem by a screenshot because it seems this is a problem with site template styles.
