Hello,

Description of menu HTML layout is available here. The menu uses /modules/mod_ariextmenu/js/css/menu.min.css file. Custom CSS rules can be added to "CSS Styles" parameter in module settings. Some style parameters like text color, background color and etc. can be configured on module settings page.

Regards,
ARI Soft

How do i hide the edges between the menu items?

I also want to remove the "arrows" from menu. Please help <http://www.ari-soft.com/images/fbfiles/images/Capture-e57d5fe26c91914447176e84be6ea45a.PNG>

Add the following CSS rule to hide arrow:

```
.ux-menu .ux-menu-arrow {display: none;}
```
