
Space at top of menu

Posted by BarendGoussard - 2017/08/29 08:35

CyberSec

Please find a link to my website. I want to remove the empty space at top of my Ari EXT menu. Is ther code I can enter in CUSTOM CSS BOX in module settings to sift that menu to the very top?

Hello,

Send an image please where we can see what you want to achieve.

Regards,
ARI Soft

This padding is added by site template styles. You can add the following CSS rule to remove it:

HTML .body .container {padding-top:0;}
