
Simple ARI Ext Menu Questions

Posted by Timmy - 2010/08/05 21:49

Hello,

I installed the ARI Ext Menu.

How are you supposed to insert text in the menu boxes? All I can do is create a blank drop-down menu that has the can send you to different pages.

Secondly, the submenus are covering each other. Could you also help me with this?

Thanks.

Hello,

Provide link to page, please, where we can see this issue.

Regards,
ARI Soft

Sorry for logging in w/ a different account (I forgot the password to my other account) :S

I'll upload a few screenshots of what I'm talking about.

If you need further information to diagnose the problem, I can give you the URL later.

thx

This problem with site template styles. Add the following CSS rules:

```
#mainNav .ux-menu-container li a
{
    text-indent: 0;
}
```

```
#mainNav .ux-menu-container li li
{
    height: auto;
}
```
