## Cannot read property 'parent' of null

Posted by Sharprez - 2018/05/11 19:30

---

I'm getting the following error in dev console....

```
Uncaught TypeError: Cannot read property 'parent' of null
    at constructor.initMarkup (eval at (menu.min.js:28), :1:2638)
    at new constructor (eval at (menu.min.js:28), :1:2498)
    at _menulnit (index.php?option=com_content&view=category&layout=blog&id=8&Itemid=146:82)
    at b (ext-core.js:8)
```

Below is the code... I'm hoping someone has seen this before and has a fix....

```
jQuery(window).on('load', function() {

    });

var sp_preloader = "";

var sp_gotop = "";

var sp_offanimation = 'default';

;(function() { var _menulnit = function() { new Ext.ux.Menu("ariext103",
{"direction":"vertical","transitionDuration":0.2,"animate":false}); Ext.get("ariext103").select(".ux-menu-
sub").removeClass("ux-menu-init-hidden"); }; if (!Ext.isIE || typeof(MooTools) == "undefined" || typeof(MooTools.More) ==
"undefined") Ext.onReady(_menulnit); else do_nothing(_menulnit); })();
jQuery(function($){ $(".hasTooltip").tooltip({"html": true,"container": "body"}); });
;(function() { var _menulnit = function() { new Ext.ux.Menu("ariext103",
{"direction":"vertical","transitionDuration":0.2,"animate":false}); Ext.get("ariext103").select(".ux-menu-
sub").removeClass("ux-menu-init-hidden"); }; if (!Ext.isIE || typeof(MooTools) == "undefined" || typeof(MooTools.More) ==
"undefined") Ext.onReady(_menulnit); else do_nothing(_menulnit); })();
```

Hello,

Could you provide a link to a page where the problem occurs?

Regards,  
ARI Soft
