Hey there,

i know we have solved this issue but we had to choose a new template, so we need a new Css-Rule for that.

See here: http://simway.net/sims2-infos (user:demo pass:demo)

Please help us fast, its very important!

Thank you!

Maby this helps you, the old css-rule was:
BODY DIV#main-shift
BODY DIV#maintop,
BODY #maintop .maintopbox,
BODY #maintop .maintopbox div.mod-blank
{
overflow: visible;
}

Hello,

It seems the module works fine. We have tried open this page in FireFox and IE browsers.
